THE PEOPLE WILL SPEAK.

Public opinion in regard to the opening of Stuyvesant Park in the evening will make itself heard at a meeting on Wednesday evening next.

The publication in THE EVENING WORLD yesterday of the original deed and the conditions under which it was received has shown the people what their rights are, and they propose to ask for them.

Stuyvesant Hall will ring on Wednesday night with the demand of the people that the full benefits of the Park be accorded to those to whom this breathing place was given.

The new Board will consist of the Mayor, Comptroller and the Commissioner of Public Works (Messrs, HEWITT, MYERS and NEWTON) and "four competent persons" (two from each party) to be appointed by the Mayor. MORE THAN MEDICINE.

Something more than medicine is needed to remedy the state of things discovered by THE EVENING WORLD'S Physician to the Poor. The doctor and the reporter visited twenty.

five tenement-houses yesterday, and found in them 225 families-nearly ten families to a building-and the houses were not large. No medicine and no advice can prevent

disease and death in such quarters. Medical skill can alleviate suffering and save some lives, but that is all. What is required is that the overcrowding of tenements should be stopped, and that a decent degree of cleanliness should be maintained.

The Health Department has started to prevent the overcrowding. It is introducing sanitary measures in many tenements. But the landlords must be compelled to cooperate, or the slaughter of the innocents will continue.

Poetic justice got in its work for once on a careless contractor. In the beedless pulling down of a brick building in Chicago the contractor was killed. He was a good man, but not sufficiently careful of human life. Usually it is the innocent workmen who suffer.

The name of the winner in The Evening WORLD's popular Word-Building contest will be announced in Monday evening's issue. The winning list will be printed at the same time for the satisfaction of all contestants.

Gen. SHERIDAN has gained ground in his gallant fight with grim Death. He was able to sit up on the edge of his bed yesterday and swing his feet. May he soon be able to swing his hat!

THE STUYVESANT PARK EXCLUSIVES HAVE AN UNTENABLE CASE.

The People's Absolute Right to the Park as Clear as Daylight-A Rousing Indigention Meeting to Be Held in Stuyvesant Hall Wednesday Evening-Popular Sentiment Aroused.

All who doubted heretofore that Peter G. Stuyvesant intended the land called Stuyvesant Park, which he deeded to the city, to be used exclusively for the benefit of the people, and that the Park Commissioners have the authority to leave the gates open in the even. ing. must have been relieved of this doubt when they read the text of the original deed in yesterday's issue of The Evenino World.

The land was given to the city for a public square exclusively, to be used as a public for the best interests of the city. No only the same than the same transfer of the commission who underst not what is required for the best interests of the city. No only the same transfer of the commission to whom and that the Park Commissioners have the

benefit. The park is by far the most ple sant in the cool of the even ng, and this is the only time the poor people in the vicinity have to enjoy it. The people who would prefer to have the gates closed during the evening are just the ones who do not care much to visit it, and to such selfish people it is safe to say that the park was not intended for them any

way.

Arrangements are being made for holding an indign tion meeting in Stuyvesant Hall next Wednesday evening. The hall has been secured, and will undoubtedly ring with the sentiments of the people in favor of opening

the gates.
Mr. M. J. Kelly, the lawyer, has willingly consented to be master of ceremonies. Mr. Kelly is strongly in avor of the question at issue. He has examined carefully the deed of the property, and he says that there is no good reason why the gates are closed in the

Good speakers will be present at the meeting and will put forth convincing arguments in favor of The Evenino Woald's measure, and all who attend will have an opportunity

Judging from the opinions and righteous indignation of the people living in the vi-cinity of Stuyesant Square, the attend-ance at the meeting will be so large that it may have to a ijourn to the open air, so all can take part in it. A large crowd will undoubtedly be present.

The speakers and further arrangements will be published in The Evening World as

The rain and muggy weather had not made Cherry stree any more attractive than usual as The Evenino World physicia and the reporter ca efully picked their way through a dirty, narr walley leading into a rear court commonly known as "Blind Man's alley." so named because of the number of blind people who live in the old rickety houses

surrounding the court. It was impossible to ascertain how many families occupied the houses, but owing to its overcrowded condition the Board of Health ha ordered a reduction of the num-

Health ha ordered a reduction of the number of occupants.
From the condition of affairs in "Blind Man's alley" it would appear that sanitary rules of the city were the last to be enforced.
The Evening World physician found swarms of forlorn little mites of humanity in urgent need of medicinal interference.
Seemingly the favorite food among the little ones is potatoes. The mothers don't knew, though, when they give the babies a potato to middle on, that, in a child under two years of age, the little stomach is no more capable of digesting potatoes than their mothers are capable of digesting gutta percha.

percha.

A pitiable cendition of affairs was observed at 15 and 18 Essex street. The rear of the former premises was in a tearfully foul condition. The Evening World is doing all it can to alleviate the suffering and distress among the port, but until the laws of neatness and cleanliness are observed and enforced no permanent and abiding result can be expected.

The first end all important step is to provide percha.

be exected.

The first and all-important step is to purify their surroundings, and this can be accomplished by every one's taking a personal interest in the matter and keeping their own apartments thoroughly clean.

But who are the landlords who allow this terrible state of affairs to exist? Is the health and general condition of their tenants of no object or interest to them?

Rivington streets, known as "Murderers' Row." contained many little invalids suffering from intestinal troubles, and the need of proper clothing is imperitive.

Are there any of your babies' balf worn out undergarments, that cou d be spared, is the question The Evening World asks of its mother readers to-night?

A Field of Noble Labor. [From the Detroit Advertiser.]

An excellent physician has been engaged by the New York Evening World, to look after poor litle sick children whose parents are unable to pay for medical treatment. Dr. Charles N. Cox is devot ng himself to the work of looking after such children. Dr. Cox will also, through the columns of the paper, inform its readers how best to preserve the health of children. The mortality among in-fants has been fearful during the past two months in New York and the outlook for the n-xt few weeks is far worse. Dr. Cox can, of course, go over but comparatively little ground in that big city. There is work for more than a hundred physicians in the same field of noble labor.

Conducting a Worthy Charity.

[From the Auburn Advertiser.]
Now THE EVENING WORLD, of New York, announces that it has regularly retained a competent physician whose business it will be to visit and prescribe for the chudren of families too poor to employ and pay for a physician. The prescriptions are also to be filled out gratuitously by the Eastern Dispensary, corner of Essex and Grand streets. This is a wor by charity, and THE EVENING WORLD deserves all the popularity and profit that may come directly or indirectly from it.
